**FIRST QUARTERLY RESULTS ANNOUNCEMENT
FOR THE THREE MONTHS ENDED 31 MARCH 2020**

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

*This announcement, for which the directors (the “**Directors**”) of Excalibur Global Financial Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.*

MANAGEMENT DISCUSSION AND ANALYSIS

GENERAL

During the Period, the Group was principally engaged in brokerage business in futures and options products being traded in Hong Kong and overseas markets, together with the stock options and securities being traded in the Stock Exchange and margin financing business.

OPERATION REVIEW

In the first quarter of 2020, the volatility of the stock markets around the world increased dramatically. The outspread of COVID-19 continues to hit financial markets around the world and causes unprecedented volatility to various stock markets and commodity products. More short-term speculative trades were made by customers who have high-risk appetite. In order to reduce the market risk of the customers and the Group, the management is taking every precautionary measure to manage the risks of trading commodity and index futures products by the customers.

FINANCIAL REVIEW

During the Period, the Group recorded a total revenue of approximately HK\$3.2 million, representing a decrease of approximately HK\$7.0 million from approximately HK\$10.2 million recorded in the Corresponding Period. Loss for the Period of approximately HK\$4.7 million was recorded, as compared to the profit of approximately HK\$2.2 million for the Corresponding Period.

Salaries and other benefits increased by approximately HK\$2.1 million, or approximately 102.2% mainly due to the increase in payment of the one-off bonus of HK\$2.0 million to the executive Directors of the Group during the Period.

Other operating and administrative expenses decreased by approximately HK\$0.8 million or approximately 16.1% mainly due to (i) the decrease of trade related expenses as the trade volume decreased during the Period and (ii) the one-off payment of licensing fee in the Corresponding Period; partially offset by the operational expenses incurred by the PRC subsidiaries during the Period.

OUTLOOK

The management expected that the second quarter of 2020 will continue to be very challenging for the Group. No new accounts for the potential customers from the PRC could be opened due to the compulsory quarantine arrangement implemented by the government. As it is believed that such an arrangement will remain for a certain period, the growth of new customers of the Group could be severely affected. More seminar workshops on futures and stock options trading will be held in Hong Kong to attract local clients. The management believes that such local marketing efforts could minimise the impact on the Group's financial performance due to the pandemic. Once the compulsory quarantine arrangement is lifted, the Group shall continue with its marketing plan and actively pursue new high net worth clients in the PRC to open accounts in Hong Kong.

OTHER INFORMATION

DIVIDEND

The Board of Directors did not declare any payment of dividend for the three months ended 31 March 2020 (dividend for the three months ended 31 March 2019: HK0.1 cent per share).
